Kanban: The Kanban Guide for the Business, Agile Project Manager, Scrum Master, Product Owner, and Development Support Team Paul VII

Creating the most efficient system for your business, development team, support team, or any other organization can often be a game of trial and error. We spend years aiming to create efficient practices that meet the demands of our customers as quickly as possible without overspending our effort, time, or money. Imagine if there was a system that helped to optimize the efforts of our teams to meet the demands of your customers.

In this book you will learn how the kanban system can do this. I will explain:

- What kanban is and where it originates from
- How it can make your team more efficient
- How to implement kanban in your team or organization

After you hear this guide, you will have an excellent foundation in this popular system and a great basis for helping others understand it.
