Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication)

Kwonhue Choi, Huaping Liu

Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication) Kwonhue Choi, Huaping Liu

Designed to help teach and understand communication systems using a classroom-tested, active learning approach.

- Discusses communication concepts and algorithms, which are explained using simulation projects, accompanied by MATLAB and Simulink
- Provides step-by-step code exercises and instructions to implement execution sequences
- Includes a companion website that has MATLAB and Simulink model samples and templates

From reader reviews:

George Carter:

Your reading sixth sense will not betray you actually, why because this Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication) publication written by well-known writer we are excited for well how to make book that may be understand by anyone who read the book. Written throughout good manner for you, leaking every ideas and composing skill only for eliminate your personal hunger then you still skepticism Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication) as good book not just by the cover but also by the content. This is one book that can break don't ascertain book by its handle, so do you still needing a different sixth sense to pick this kind of!? Oh come on your looking at sixth sense already alerted you so why you have to listening to yet another sixth sense.

John Tillery:

Are you kind of hectic person, only have 10 or maybe 15 minute in your day time to upgrading your mind talent or thinking skill perhaps analytical thinking? Then you have problem with the book compared to can satisfy your limited time to read it because all of this time you only find guide that need more time to be examine. Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication) can be your answer as it can be read by anyone who have those short spare time problems.

Angel Sherrill:

The book untitled Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication) contain a lot of information on the idea. The writer explains your girlfriend idea with easy method. The language is very simple to implement all the people, so do not worry, you can easy to read that. The book was compiled by famous author. The author brings you in the new period of time of literary works. You can easily read this book because you can please read on your smart phone, or model, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can open up their official web-site in addition to order it. Have a nice study.

Dawn Campbell:

As a college student exactly feel bored to help reading. If their teacher questioned them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's internal or real their leisure activity. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's

country. So , this Problem-Based Learning in Communication Systems Using MATLAB and Simulink (IEEE Series on Digital & Mobile Communication) can make you experience more interested to read.
