On Soul and Earth: The Psychic Value of Place Elena Liotta

On Soul and Earth offers an original perspective on the relationship between the environment and the human psyche. Physical spaces contribute to the building of identity through personal experience and memory. Places evoke emotions and carry their own special meanings.

Elena Liotta and her contributors also explore the neglected topics of migration and travel. The author has extensive clinical experience of working with patients from a wide variety of national and cultural backgrounds. Globalization is present in the clinical office as well as in the wider world and the transformations currently being wrought in the areas of cultural and national identity also impact on clinical work.

This book will be of interest to Jungian analysts as well as psychotherapists and mental health professionals, especially those who are addressing transcultural and multicultural issues including voluntary or enforced migration. It will also appeal to urban planners, architects and those interested in environmental issues.
