Integrated Region-Based Image Retrieval: v. 11 (The Information Retrieval Series)

James Z. Wang

Integrated Region-Based Image Retrieval: v. 11 (The Information Retrieval Series) James Z. Wang Content-based image retrieval is the set of techniques for retrieving relevant images from an image database on the basis of automatically derived image features. The need for efficient content-based image re trieval has increased tremendously in many application areas such as biomedicine, the military, commerce, education, and Web image clas sification and searching. In the biomedical domain, content-based im age retrieval can be used in patient digital libraries, clinical diagnosis, searching of 2-D electrophoresis gels, and pathology slides. I started my work on content-based image retrieval in 1995 when I was with Stanford University. The project was initiated by the Stan ford University Libraries and later funded by a research grant from the National Science Foundation. The goal was to design and implement a computer system capable of indexing and retrieving large collections of digitized multimedia data available in the libraries based on the media contents. At the time, it seemed reasonable to me that I should discover the solution to the image retrieval problem during the project. Experi ence has certainly demonstrated how far we are as yet from solving this basic problem.

From reader reviews:

Jennifer Nava:

Have you spare time for a day? What do you do when you have considerably more or little spare time? That's why, you can choose the suitable activity to get spend your time. Any person spent their spare time to take a wander, shopping, or went to the Mall. How about open or even read a book entitled Integrated Region-Based Image Retrieval: v. 11 (The Information Retrieval Series)? Maybe it is to get best activity for you. You understand beside you can spend your time with your favorite's book, you can smarter than before. Do you agree with it is opinion or you have other opinion?

James Rouse:

What do you in relation to book? It is not important together with you? Or just adding material when you want something to explain what you problem? How about your spare time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Every individual has many questions above. They have to answer that question simply because just their can do in which. It said that about publication. Book is familiar on every person. Yes, it is right. Because start from on pre-school until university need this particular Integrated Region-Based Image Retrieval: v. 11 (The Information Retrieval Series) to read.

Micah Clark:

Are you kind of hectic person, only have 10 or even 15 minute in your moment to upgrading your mind skill or thinking skill also analytical thinking? Then you have problem with the book as compared to can satisfy your short space of time to read it because this all time you only find guide that need more time to be learn. Integrated Region-Based Image Retrieval: v. 11 (The Information Retrieval Series) can be your answer mainly because it can be read by you actually who have those short time problems.

John Smithers:

You can find this Integrated Region-Based Image Retrieval: v. 11 (The Information Retrieval Series) by visit the bookstore or Mall. Simply viewing or reviewing it may to be your solve challenge if you get difficulties for ones knowledge. Kinds of this publication are various. Not only by simply written or printed but can you enjoy this book by e-book. In the modern era including now, you just looking from your mobile phone and searching what your problem. Right now, choose your own personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose suitable ways for you.
