Text Mining Techniques for Healthcare Provider Quality Determination: Methods for Rank Comparisons (Premier Reference Source) Patricia Cerrito
Useful to healthcare providers, severity indices conclude which patients are most at risk for infection as well as the intensity of illness while in the hospital. **Text Mining Techniques for Healthcare Provider Quality Determination: Methods for Rank Comparisons** discusses the general practice of defining a patient severity index for risk adjustments and comparison of patient outcomes to assess quality factors. This Premier Reference Source examines the consequences of patient severity models and investigates the general assumptions required to perform standard severity adjustment.
