Aquaponic Gardening For Beginners: Raising Fish and Growing Vegetables in Aquaponics Garden
Erin Morrow
Aquaponic gardening is a symbiotic gardening system that relies upon both flora and fauna to create a balanced ecosystem for harvesting both fish and plant material. It requires a larger amount of setup and investment than a standard hydroponic system, but contains benefits over it that we will address later on, it as well is less dependent upon outside addition of nutrients or material to maintain its optimal operation level.
