Renal Failure and Replacement Therapies (Competency-Based Critical Care) Sara Blakeley
Increased recognition of the overlap between critical care and renal medicine, and recent advances in the understanding of acute renal failure and the application of renal replacement therapies, have brought increased attention to the nephrologist's role in the intensive care unit (ICU). This book is written to provide an approach for the resident in nephrology, at any level of training, with regards to critically ill patients. This text provides the information necessary to provide care for the nephrology patient in the ICU.
