The Life of Your Choice: Moving from "Oh, No!" to "Oh, Wow!" Daniel Bax
This is the story of a man who miraculously woke up after a catastrophic accident left him unable to talk or eat, with his left side completely paralyzed, and with no memories of his past or even who he was. He spent the next five years piecing together his past and relearning how to speak, eat, and walk---all things that the doctors had assured his family he would never do again. This book gives us his story and the methods he used to achieve what the conventional wisdom said was impossible, and serves as a guide for the readers to replicate his success in their own lives.
