Journalism After Snowden: The Future of the Free Press in the Surveillance State (Columbia Journalism Review Books)

Journalism After Snowden: The Future of the Free Press in the Surveillance State (Columbia Journalism Review Books)

Edward Snowden's release of classified NSA documents exposed the widespread government practice of mass surveillance in a democratic society. The publication of these documents, facilitated by three journalists, as well as efforts to criminalize the act of being a whistleblower or source, signaled a new era in the coverage of national security reporting. The contributors to *Journalism After Snowden* analyze the implications of the Snowden affair for journalism and the future role of the profession as a watchdog for the public good. Integrating discussions of media, law, surveillance, technology, and national security, the book offers a timely and much-needed assessment of the promises and perils for journalism in the digital age.

Journalism After Snowden is an essential read for citizens, journalists, and academics in search of perspective on the need for and threats to investigative journalism in an age of heightened surveillance. The book features contributions from key players in the initial reporting of the NSA files, including former editor-in-chief of *The Guardian*, Alan Rusbridger; ex-New York Times executive editor Jill Abramson; legal scholar and journalist Glenn Greenwald; and Edward Snowden. Other contributors include dean of Columbia Graduate School of Journalism Steve Coll, Internet and society scholar Clay Shirky, legal scholar Cass Sunstein, and journalist Julia Angwin. Topics discussed include the protection of sources, digital security practices, the legal rights of journalists, access to classified data, interpreting journalistic privilege in the digital age, and understanding the impact of the Internet and telecommunications policy on journalism. The anthology's interdisciplinary nature provides a comprehensive overview and understanding of how society can protect the press and ensure the free flow of information.

Why, because this book is usually more than just a book.

Steven Bemis:

Is it an individual who having spare time then spend it whole day by simply watching television programs or just resting on the bed? Do you need something totally new? This Journalism After Snowden: The Future of the Free Press in the Surveillance State (Columbia Journalism Review Books) can be the response, oh how comes? It's a book you know. You are consequently out of date, spending your time by reading in this new era is common not a geek activity. So what these publications have than the others?

Irene Delong:

As we know that book is important thing to add our know-how for everything. By a reserve we can know everything we wish. A book is a pair of written, printed, illustrated as well as blank sheet. Every year was exactly added. This reserve Journalism After Snowden: The Future of the Free Press in the Surveillance State (Columbia Journalism Review Books) was filled in relation to science. Spend your free time to add your knowledge about your scientific research competence. Some people has distinct feel when they reading some sort of book. If you know how big advantage of a book, you can truly feel enjoy to read a reserve. In the modern era like at this point, many ways to get book that you wanted.

Gerald Wright:

As a pupil exactly feel bored to help reading. If their teacher inquired them to go to the library or even make summary for some e-book, they are complained. Just minor students that has reading's soul or real their passion. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Journalism After Snowden: The Future of the Free Press in the Surveillance State (Columbia Journalism Review Books) can make you feel more interested to read.
