Creative force or creative shaping?

This unprecedented effort to plumb the workings of the ontopoiesis of life by disentangling its primordial forces and shaping devices as they enter into
the originary matrixes of life yields fascinating insights.

Prepared by the investigation of the first two matrixes (the `womb of life' and `sharing-in-life', *Analecta Husserliana*
Volume 74) the present collection of essays focuses upon the third and *crowning creative matrix*, *Imaginatio Creatrix* here proves itself to be the source and
driving force which brings us to the origins of the human mind - human life.
