Is the closet just a metaphor? *Closet Space* provides a highly original account of the spatial metaphor of "the closet", and is the first geography text to focus on this important issue. Using a variety of research techniques and materials, the book explores the closet through texts including:
* the oral histories of gay men in the UK and US
* the sexualised landscape of a New Zealand city
* the national census of Britain and the US
* international travel guides and travelogues
and refers to the work of Butler, Lefebvre and Foucault.
