This is a new type of book. It’s a visual book with over 2 hours of video.

I have learned photography and retouching with the use of tutorials and find that this is a very powerful method of teaching.

Using Photoshop CS 5 we are going to retouch five different landscapes photos. I will show you a workflow from start to end on each.

While teaching I try to follow two rules :
1. No technical terms explained with technical words, but with simple English.
2. No theory, practical and visual examples only.

It was Steve Jobs Idea to include visuals contents on educations materials for books on the iPad, and I think this will be a revolution.

I would like to thanks Scott Kelby & Matt Kloskowski two amazing Photographer and teacher who’s help has been tremendous. These guys literally changed my life for the better. I get up in the morning and do what I love, and I think that is priceless.

I love to create and share technics, and I hope this Photoshop Landscapes retouching visual book will help you improve your retouching skills and help create astounding photography.
